Important

The plagiarism checking did **not work correctly** last few weeks, due to change in the Bing Search API terms. **Sorry for the inconvenience.**

We would probably **not be able to offer free plagiarism check** any more. The reason is the plagiarism check technology deeply depends on web search services provided by **global web indexing players**. Right now, the Bing Web Search API as well as Yahoo Web Search API **is not free**. Moreover, Google Web Search API is already **depreciated** and it is only matter of time when Google fully disables it.

We **will** search for ways to provide you **absolutely free plagiarism check**, but we cannot guarantee it.

TIP: You may like our education resources section which includes [free lesson plans on plagiarism and referencing](#).

When you begin a course of study, you are warned not to plagiarise - and usually you'll receive some guidelines on plagiarism and how to avoid it.

Despite the fact that Universities offer this guidance, most students plagiarise because they don't understand *how* to avoid plagiarism.

"...once students clearly understand what plagiarism is, its consequences and how to reference correctly so they can draw on published works, plagiarism becomes less of a problem... the majority of students who engage in plagiarism do it more out of ignorance than the desire to cheat"

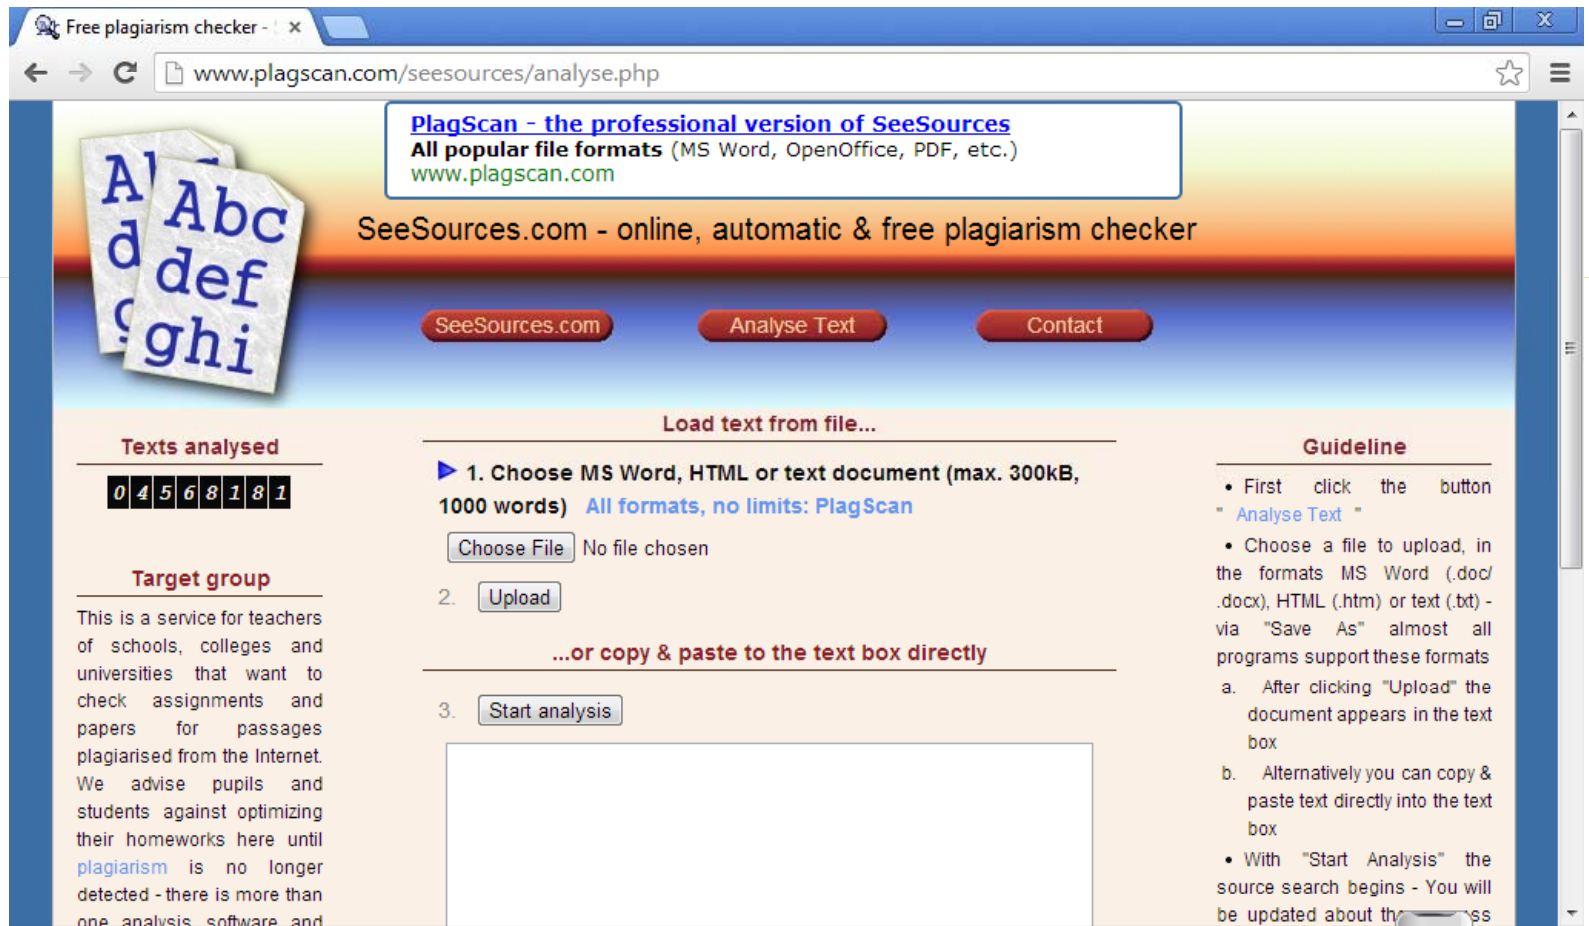

Diana Baker, Emmanuel College, Durham.

This section provides a practical guide to avoiding plagiarism. It explains common traps you may fall into as a student if you don't use and reference material correctly.

Deja vu

The screenshot shows a web browser window with the address bar displaying `dejavu.vbi.vt.edu/dejavu/`. The website has a blue header with the title "Deja vu" and the subtitle "A study of scientific publication ethics". A navigation menu includes links for Home, Browse, Report, Help, Statistics, Contact Us, Team, and References. Below the header is a blue banner with an illustration of an open book and the text "Powered by eTBLAST Innovation Labs Virginia Bioinformatics Institute". The main content area is divided into two columns. The left column features the heading "Deja Vu: a Database of Highly Similar Citations*" and provides instructions on how to browse entries, including a link to "SIP entries". It also includes a feedback survey link and a link to join the discussion on COPE. The right column is titled "Latest News" and lists three recent articles: a Nature article from 2013-01-30, a Skip Garner interview from 2012-01-19, and another Nature article from 2012-01-04.
